

Digital Solutions for Water Management

The Digital Solutions for Water Management: A Pan- African Symposium is taking place in Addis Ababa Ethiopia from October 21-23, 2025, at Haile Grand Hotel, Addis Ababa – Ethiopia.

Experts, practitioners, and policymakers from across Africa and beyond are gathering in Addis Ababa to explore how **digital technologies and Earth Observation** can provide sustainable solutions to Africa's pressing water challenges.

With **inspiring keynotes, expert and policy dialogues, hands-on demonstrations**, and **vibrant networking sessions**, the symposium serves as a powerful platform to shape the continent's digital water future.

 **ENTRO** is proud to take part in this Pan-African gathering—showcasing how **cutting-edge data and digital tools** are transforming the way Africa manages its water resources.
